Children need to sleep well. When we sleep, our body rests and our brain gets ready for a new day. It is a good idea to go to bed at the same time every night. Turn off screens one hour before bed. Read a book or listen to quiet music instead. A tired student finds it hard to learn, but a rested student can listen and think more clearly.

1. What happens to our body when we sleep?
2. Give two tips for a good night's sleep.
3. Find a word in the text that means "not tired".
4. Do you follow these tips? Write one sentence.

Answers: 1. It rests. 2. Same bedtime; no screens one hour before bed; read or listen to quiet music. 3. rested.
4. Answers vary.

Reading routine

Ask learners to read the text twice at home: once for the main idea, once to answer the questions. They underline one new word and bring it to class.

SECTION 10

Parent Note

A ready-to-use letter to families about English homework. Copy, fill in the blanks and send.

Dear families,

This month your child will bring home short English tasks. They are designed to take about 15 to 20 minutes, three or four times a week. The goal is regular, relaxed practice, not perfection.

How you can help:

- Choose a quiet place and a regular time for homework.
- Ask your child to explain the task in their own words.
- You do not need to speak English. Listen, encourage and celebrate effort.
- Let your child make mistakes. Mistakes are part of learning.
- Check the tracker together and sign it at the end of each week.

Speaking tasks: from time to time your child will record a short message or practise aloud. Please give them a few minutes of your attention.

If a task is too hard or takes too long, please write a short note on the sheet and stop. We will talk about it in class.

Thank you for your support.

Kind regards,

_____ (teacher name)

Date: _____
