Read the text. Work out the meaning of each word from the context.

The Science Fair

Dana spent weeks preparing a project about solar energy. She built a small model house with tiny panels on the roof and measured how much electricity they produced. On the day of the fair, she felt anxious because the judges were strict. However, her clear explanation impressed them, and she answered every question confidently. Dana won second prize, which she considered a huge achievement for a first attempt.

- 1 "Anxious" means _____.
