Read the text and guess the meaning of each word from its context.

A Walk in the Desert

The desert was barren, with no trees and hardly any water. The midday sun was scorching, so the group rested in the shade of a huge rock. Their guide warned them to ration their water, as the nearest well was a day's walk away. Despite the harsh conditions, they spotted a lizard darting across the sand. Its camouflage was so effective that it was almost invisible against the stones.

- 1 "Barren" means _____.
a) with nothing growing b) covered in forest c) full of animals
