Date: _____

Read the text and infer the meaning of each word.

The Generous Farmer

After a disastrous flood destroyed many crops in the valley, farmer Alan decided to help his neighbours. Although his own harvest was meagre, he shared sacks of potatoes with families in need. Some villagers were reluctant to accept charity, but he reassured them that they would do the same for him. Months later, when his barn burned down, the whole community rallied to rebuild it. His kindness had come full circle.
