8-12 Week Progressive Program

Real results and client retention

Why a program keeps clients

> *Clients stay when they can see where they are going. A clear 8 to 12 week plan gives structure, visible progress and a natural moment to renew.*

This plan uses the classes in your library. It is written for a client who trains two to three times a week. For 8 weeks, run phases 1 to 4 and compress phase 5 into a final check-in. For 12 weeks, run all five phases.

Not medical advice

This program is a teaching guide for trained instructors. It is not medical advice and it does not promise any result. Adapt for pregnancy, older adults and injuries using the adaptation on each exercise sheet, and ask the client to consult their healthcare provider when needed.

Program at a glance

PHASE	WEEKS	FOCUS
Phase 1 · Foundation	Weeks 1-2	Breath, neutral spine, core connection and joint-friendly movement.
Phase 2 · Strength & Control	Weeks 3-5	Build core endurance, hip stability and posture. Introduce props or the Reformer.
Phase 3 · Integration	Weeks 6-8	Link exercises into flows and add balance and coordination.
Phase 4 · Challenge	Weeks 9-10	Move into intermediate work with more range and complexity.
Phase 5 · Mastery	Weeks 11-12	Bring it together with longer flows and client-led choices.

Retention tips

- **Schedule the next phase before the current one ends.** People renew when the next step is already on the calendar.
- **Share one metric** that matters to the client: posture photo, balance time, number of reps with good form.
- **Send a short message after each session**: one thing they did well and one thing to remember.
- **Celebrate milestones** at week 4, week 8 and week 12.
- **Ask for a review or a referral** after a milestone, not before.
