VOLUME 5

Intermediate Classes

Classes 41-70 · 60 minutes each, ready to teach

THE PILATES INSTRUCTOR'S LIBRARY

How to teach a class

> *Open it, pick it, teach it. Every class is 60 minutes: 10 minutes of warm-up, 40 minutes of main block and 10 minutes of cool-down.*

1. **Read the goal** and the first block before the room fills up.
2. **Follow the timing.** The minutes column adds up to exactly 60.
3. **Say the cue** in the last column word for word, then add your own once the room is moving.
4. **Look up any exercise** by its number (for example V1-023) in Volumes 1-3 for the diagram, steps and adaptations.
5. **Adapt on the spot:** use the progression and regression on the exercise sheet.

> **Equipment**
>
> Check springs, straps, bars and the ball before every class. If a client is pregnant or has an injury, choose the adaptation on the exercise sheet or substitute a simpler exercise from the same category.
