Before You Begin

Important Notes

These recipes are for **food-based** edible candles made from ingredients such as butter, chocolate, cheese, honey and coconut oil. They are **not** instructions for eating ordinary wax or scented candles.

Always use food-grade wicks (typically cotton wicks rated for food use). **The wick is not food and must not be eaten.** Remove the wick before consuming the candle.

Follow food safety practices: wash your hands, use clean equipment and store finished candles as directed in each recipe. When in doubt, refrigerate.

Allergen Awareness

Many recipes contain common allergens including dairy, nuts, wheat and soy. Always check ingredients against your guests' dietary needs. Label your creations clearly when gifting or selling.

How to Use This Collection

Each recipe includes a complete ingredient list, step-by-step instructions and a serving tip. Start with simpler recipes (marked with ★) and work your way up. Most candles can be prepared in 30–60 minutes plus setting time.

avory edible candle recipes featuring butter, cheese, herbs and bold
ors — perfect for dinner parties, appetizer boards and thoughtful gifts.

SAVORY

1. Fresh Herb Butter

A comforting, buttery favorite that brings a little extra ceremony to a beautifully set table. The blend of fresh herbs creates a fragrant experience from the moment you light the wick.

INGREDIENTS

- 1 cup (225 g) unsalted butter, softened
- 2 tbsp fresh parsley, finely chopped
- 1 tbsp fresh chives, finely chopped
- 1 tsp fresh thyme leaves
- 1 tsp fresh rosemary, finely minced
- ½ tsp flaky sea salt
- ¼ tsp freshly ground black pepper
- 1 food-grade cotton wick per candle

INSTRUCTIONS

1. In a mixing bowl, combine the softened butter with all the chopped herbs. Mix until evenly distributed.
2. Season with sea salt and black pepper. Taste and adjust to your preference.
3. Place a food-grade wick in the center of a small ramekin or silicone mold, securing it with a dab of butter at the base. Use a skewer across the top to keep the wick centered.
4. Spoon the herb butter into the mold, pressing gently to eliminate air pockets. Smooth the top with the back of a spoon.
5. Refrigerate for at least 2 hours, or until completely firm.
6. If using a silicone mold, carefully unmold onto a serving plate. If using a ramekin, serve directly.
7. Light the wick and allow 2–3 minutes for the butter to begin melting around the flame before serving.

> **Serving tip:** Place on a wooden board with crusty sourdough, breadsticks and a small dish of olive oil. As the butter melts, guests can dip bread directly into the warm pool.

SAVORY

2. Sun-Dried Tomato & Basil

A Mediterranean-inspired combination with rich tomato notes and a fresh herbal finish. The sun-dried tomatoes add a subtle sweetness as the candle warms.

INGREDIENTS

- 1 cup (225 g) unsalted butter, softened
- 3 tbsp sun-dried tomatoes (oil-packed), drained and finely minced
- 2 tbsp fresh basil, finely chopped
- 1 small clove garlic, minced
- ½ tsp dried oregano
- ½ tsp sea salt
- Pinch of red pepper flakes (optional)
- 1 food-grade cotton wick per candle

INSTRUCTIONS

1. Blend the softened butter with minced sun-dried tomatoes, basil, garlic, oregano and salt until well combined.
2. Add red pepper flakes if you prefer a gentle heat.
3. Prepare your mold with a centered wick, secured at the base.
4. Pack the butter mixture firmly into the mold, pressing out any air bubbles.
5. Smooth the surface and refrigerate for 2–3 hours until solid.
6. Unmold carefully or serve in the ramekin. Trim the wick to about 1 cm above the surface.
7. Light and let the butter begin to pool before serving.

> **Serving tip:** Pair with focaccia, grilled vegetables and a drizzle of balsamic reduction. The tomato-basil aroma sets a warm, inviting atmosphere.

SAVORY

3. Cream Cheese, Herbs & Walnuts

Creamy, herbaceous and full of texture — a distinctive idea for your next gathering. The walnut pieces add a satisfying crunch to every bite.

INGREDIENTS

- ½ cup (115 g) unsalted butter, softened
- ½ cup (115 g) cream cheese, at room temperature
- ¼ cup walnuts, finely chopped
- 2 tbsp fresh dill, chopped
- 1 tbsp fresh chives, chopped
- ½ tsp garlic powder
- ½ tsp sea salt
- 1 food-grade cotton wick per candle

INSTRUCTIONS

1. Beat the butter and cream cheese together until smooth and fluffy.
2. Fold in the chopped walnuts, dill, chives, garlic powder and salt.
3. Set a wick in the center of your mold. The cream cheese base sets softer than pure butter, so use a mold you can serve in (a ramekin works well).
4. Spoon the mixture in, pressing gently. Smooth the top.
5. Refrigerate for at least 3 hours (this mixture needs extra time to firm up).
6. Trim the wick and light. The melted pool will be rich and spreadable.

> **Serving tip:** Serve alongside whole-grain crackers and fresh celery sticks. The melted candle becomes an instant warm dip.

SAVORY

4. Garlic & Rosemary Butter

An aromatic classic that fills the room with the scent of roasted garlic and fresh rosemary. Simple ingredients, unforgettable impact.

INGREDIENTS

- 1 cup (225 g) unsalted butter, softened
- 3 cloves garlic, roasted and mashed
- 1½ tbsp fresh rosemary, finely chopped
- ½ tsp sea salt
- ¼ tsp black pepper
- 1 food-grade cotton wick per candle

INSTRUCTIONS

1. To roast garlic: wrap a whole head in foil with a drizzle of olive oil. Bake at 400°F (200°C) for 35–40 minutes. Squeeze out the soft cloves.
2. Mash the roasted garlic and mix into the softened butter along with rosemary, salt and pepper.
3. Prepare a mold with a centered wick.
4. Fill the mold with the garlic butter, pressing firmly.
5. Refrigerate for 2–3 hours until set.
6. Unmold or serve in the ramekin. Light and enjoy the aroma as the butter warms.

> **Serving tip:** Perfect alongside a warm baguette. As it melts, spoon the garlic butter over steamed vegetables or grilled steak.

SAVORY

5. Smoked Paprika & Olive Oil

A bold, smoky candle made with a blend of butter and olive oil. The paprika gives it a striking orange-red color and a warm, earthy flavor.

2. Note: the lemon juice may cause slight separation. Beat vigorously to re-emulsify.
3. Pack into a mold with centered wick. Refrigerate for 3 hours.

Bold and distinctive — for those who appreciate strong flavors. The walnuts add warmth and crunch to every bite.

2. Fold in walnuts, honey and pepper.
3. Pack into a ramekin with centered wick. Refrigerate 3 hours.
