Cut & Paste Activity Book

Hands-on cutting and pasting activities to build fine motor skills and creativity

Contents

How to Use This Book 3

Section 1 — Sort & Classify 4

Activity 1: Sort Animals by Habitat 5

Activity 2: Sort Shapes by Size 6

Activity 3: Sort Foods by Group 7

Activity 4: Sort Vehicles by Type 8

Activity 5: Sort Colors into Groups 9

Section 2 — Build a Scene 10

Activity 6: Underwater Scene 11

Activity 7: Farm Scene 12

Activity 8: Space Scene 13

Activity 9: Garden Scene 14

Section 3 — Complete the Picture 15

Activity 10: Match the Missing Half 16

Activity 11: Complete the Face 17

Activity 12: Build the Robot 18

Activity 13: Finish the House 19

Section 4 — Pattern Making 20

Activity 14: Repeating Patterns 21

Activity 15: Build a Mosaic 22

Activity 16: Design a Quilt Square 23

How to Use This Book

> *Cutting, pasting, and arranging are some of the most powerful ways young children develop fine motor control, hand-eye coordination, and creative thinking. Every page in this book is designed to be printed, cut, and glued — so grab your supplies and let the fun begin!*

Supplies You Will Need

- [ ] Child-safe scissors (rounded tips recommended for ages 3–5)
- [ ] Glue stick (washable, non-toxic)
- [ ] Crayons or colored pencils
- [ ] A flat, clean workspace
- [ ] Printed pages from this book (use regular or cardstock paper)

Scissors Safety Tips

- Always supervise children under age 6 when using scissors.
- Teach your child to hold scissors with the thumb on top and to cut away from their body.
- When not cutting, scissors should be closed and placed on the table with the blades pointing away.
- Use rounded-tip safety scissors — they cut paper well but are much safer for little hands.

Instructions for Parents

- **Print first:** Print the activity page on regular paper or light cardstock. Cardstock makes pieces easier to handle.
- **Cut the pieces:** Younger children (ages 3–4) may need you to pre-cut the pieces. Older children (ages 5–7) can cut along the dashed lines themselves.
- **Read the instructions aloud:** Each activity has a short instruction line at the top. Read it with your child before starting.
- **Let them explore:** There is no single “right” answer for the scene-building and pattern activities. Encourage creativity!
- **Praise effort:** Focus on the process — cutting neatly, placing carefully — rather than a perfect result.

1

Sort & Classify

Cut out the items and paste each one into the correct category. Think carefully before you glue!

Activity 1: Sort Animals by Habitat

Cut out each animal name below. Decide where that animal lives, then paste it into the matching habitat box on the next section.

Animals to Cut Out

Lion
Has a big mane, lives in grasslands

Dolphin
Swims in the sea, very playful

Eagle
Soars high, builds nests in tall trees

Frog
Hops on land, lays eggs in ponds

Camel
Has humps, walks on hot sand

Penguin
Waddles on ice, swims in cold water

Bear
Lives among trees, eats fish and berries

Shark
Has sharp teeth, swims deep in the ocean

Fox
Has a bushy tail, hides among trees

Scorpion
Has a stinger, hides under desert rocks

Walrus
Has big tusks, rests on ice

Owl
Hunts at night, lives in forest trees

Paste the Animals Here

OCEAN	FOREST	DESERT	ARCTIC

Answer Key (for parents)

Ocean: Dolphin, Shark • **Forest:** Eagle, Bear, Fox, Owl • **Desert:** Lion, Camel, Scorpion • **Arctic:** Penguin, Walrus • **Pond/Both:** Frog (accept Forest or a separate Pond category)

Activity 2: Sort Shapes by Size

Cut out each shape below. Look at its label — is it small, medium, or large? Paste it into the correct size column.

Shapes to Cut Out

Small Circle
(about the size of a coin)

Large Triangle
(about the size of your hand)

Medium Square
(about the size of a sticky note)

Small Star
(about the size of a coin)

Large Rectangle
(about the size of a book)

Medium Diamond
(about the size of a sticky note)

Small Triangle
(about the size of a coin)

Large Circle
(about the size of your hand)

Medium Heart
(about the size of a sticky note)

Paste the Shapes Here

SMALL	MEDIUM	LARGE

Activity 3: Sort Foods by Group

Cut out each food item. Think about what kind of food it is, then paste it into the correct food group box.

Foods to Cut Out

Apple
Red or green, grows on a tree

Bread
Baked from flour, sliced for sandwiches

Milk
White drink, comes from cows

Chicken
Cooked meat, high in protein

Carrot
Orange vegetable, crunchy when raw

Rice
Small white grains, a staple food

Cheese
Yellow or white, made from milk

Banana
Yellow fruit, soft inside

Broccoli
Green vegetable, looks like tiny trees

Eggs
Oval shape, high in protein

Pasta
Made from wheat flour, many shapes

Yogurt
Creamy, made from milk

Paste the Foods Here

FRUITS & VEGETABLES	GRAINS	DAIRY	PROTEIN

Answer Key (for parents)

Fruits & Vegetables: Apple, Carrot, Banana, Broccoli • **Grains:** Bread, Rice, Pasta • **Dairy:** Milk, Cheese, Yogurt • **Protein:** Chicken, Eggs

Activity 4: Sort Vehicles by Type

Cut out each vehicle below. Does it travel on land, on water, or in the air? Paste it into the correct column.

Vehicles to Cut Out

Car
Four wheels, drives on roads

Sailboat
Has a big sail, floats on water

Airplane
Has wings, flies high in the sky

Bicycle
Two wheels, you pedal to move

Submarine
Travels deep under the ocean

Helicopter
Has spinning blades on top, flies

Truck
Big vehicle, carries heavy loads on roads

Canoe
Narrow boat, you paddle to move

Hot Air Balloon
Big colorful balloon, floats in the sky

Train
Runs on tracks, has many cars

Ferry
Large boat, carries people across water

Scooter
Two wheels, you stand and push

Paste the Vehicles Here

LAND	WATER	AIR

Answer Key (for parents)

Land: Car, Bicycle, Truck, Train, Scooter • **Water:** Sailboat, Submarine, Canoe, Ferry • **Air:** Airplane, Helicopter, Hot Air Balloon

Activity 5: Sort Colors into Groups

Cut out each colored item below. Warm colors remind us of fire and sunshine (reds, oranges, yellows). Cool colors remind us of water and sky (blues, greens, purples). Paste each item into the correct group.

Colored Items to Cut Out

Red Ladybug
Warm or Cool?

Blue Whale
Warm or Cool?

Yellow Sunflower
Warm or Cool?

Green Frog
Warm or Cool?

Orange Pumpkin
Warm or Cool?

Purple Grapes
Warm or Cool?

Red Fire Truck
Warm or Cool?

Blue Butterfly
Warm or Cool?

Yellow Banana
Warm or Cool?

Green Turtle
Warm or Cool?

Orange Goldfish
Warm or Cool?

Purple Eggplant
Warm or Cool?

Paste the Items Here

WARM COLORS (RED, ORANGE, YELLOW)	COOL COLORS (BLUE, GREEN, PURPLE)

2

Build a Scene

Cut out the pieces and arrange them on the scene to create your own picture. There is no wrong way — be creative!

Activity 6: Underwater Scene

Imagine you are looking through a submarine window into the deep blue ocean. Cut out the sea creatures and objects below, then paste them onto the scene box to build your own underwater world. You can color the background blue or add your own drawings too!

Your Underwater Scene (paste pieces here)

~ ocean floor ~

Pieces to Cut Out

Clownfish
Small orange fish with white stripes

Seaweed
Tall green wavy plant

Treasure Chest
Wooden box full of gold coins

Octopus
Eight long arms, round head

Starfish
Five pointed arms, orange or pink

Bubbles
Floating circles rising upward

Coral
Colorful, branching shapes on the floor

Sea Turtle
Green shell, four flippers

Jellyfish
See-through dome with trailing tentacles

Anchor
Heavy metal shape on a chain

Activity 7: Farm Scene

It is a sunny morning on the farm! Cut out all the farm items below and paste them onto the scene to build your own farmyard. Add color with crayons when you are done.

Your Farm Scene (paste pieces here)

~ green pasture with a dirt path ~

Pieces to Cut Out

Red Barn
Big building with wide doors

Cow
Black and white spots, says “moo”

Chicken
Brown feathers, pecks at the ground

Tractor
Big green machine with huge wheels

Sun
Bright yellow circle with rays

Wooden Fence
Horizontal boards along the pasture

Pig
Pink and round, curly tail

Horse
Brown, tall, flowing mane

Apple Tree
Green top with red apples

Hay Bale
Round golden bundle of straw

Activity 8: Space Scene

Blast off into outer space! Cut out the space objects below and paste them onto the dark sky to create your own galaxy scene. Color the background dark blue or black first if you like.

Your Space Scene (paste pieces here)

~ deep space ~

Pieces to Cut Out

Rocket Ship
Pointy top, flames coming from the bottom

Ringed Planet
Big sphere with colorful rings around it

Shining Star
Five-pointed, bright yellow

Astronaut
White suit, round helmet, floating

Friendly Alien
Green, two big eyes, waving

Moon
Gray circle with craters

Satellite
Metal box with two solar panel wings

Comet
Bright ball with a long glowing tail

Space Station
Big structure with many modules

Red Planet
Small reddish sphere, like Mars

Activity 9: Garden Scene

Spring has arrived and the garden is coming alive! Cut out the garden items and paste them onto the scene to create a beautiful garden. Draw extra details with your crayons!

Your Garden Scene (paste pieces here)

~ garden with green grass and a blue sky ~

Pieces to Cut Out

Red Tulip
Tall stem with a cup-shaped red flower

Butterfly
Orange and black wings, flying

Ladybug
Small, red with black dots

Watering Can
Green can with a long spout

Sun
Bright yellow circle in the sky

Oak Tree
Thick trunk and wide green leaves

Robin
Small bird with a red breast

Worm
Pink and wiggly, peeking out of dirt

Sunflower
Tall, yellow petals around a brown center

Garden Snail
Spiral shell, moving slowly on a leaf

3

Complete the Picture

Each picture is missing something. Cut out the pieces and paste them on to finish the image!

Activity 10: Match the Missing Half

Each row shows the LEFT half of an object. Draw or find the matching RIGHT half and paste it next to the left side to make the object whole. Try to make the two halves match!

Left Halves (already on the page)

OBJECT	LEFT HALF DESCRIPTION	PASTE THE RIGHT HALF HERE
Apple	Left half of a round apple with a stem on top and a leaf. Red on the outside, white/cream inside with two seed shapes.	
Butterfly	Left wing with three rounded sections. The body runs down the center with one antenna curving left.	
House	Left side of a house: half the triangular roof, one window, half the front door, and the left wall.	
Heart	Left half of a heart shape: one rounded bump at the top curving down to a point at the bottom.	
Star	Left side of a five-pointed star: two-and-a-half points visible on the left, with straight edges.	

Tip for Parents

For younger children, draw the left halves for them on separate paper. Older children can draw their own left half and then create the matching right half. The key skill is learning about symmetry — both halves should mirror each other.

Activity 11: Complete the Face

Below is a blank face outline. Cut out the facial features from the pieces section and paste them onto the face to create a person. You choose the expression — happy, silly, surprised, or anything you like!

Blank Face (paste features here)

Large oval face outline

Paste eyes, nose, mouth, ears, and hair below.

Features to Cut Out

Round Eyes (pair)
Two circles with a dot in each center

Sleepy Eyes (pair)
Two half-closed ovals

Wide Eyes (pair)
Two big circles with large pupils

Button Nose
Small circle

Triangle Nose
Small downward-pointing triangle

Happy Mouth
Wide upward curve (smile)

Surprised Mouth
Open circle shape (gasp)

Silly Mouth
Wavy line with tongue sticking out

Round Ears (pair)
Two half-circles for the sides of the head

Curly Hair
Loops and swirls across the top

Straight Hair
Lines going down from the top

Spiky Hair
Zigzag points standing up on top

Activity 12: Build the Robot

This robot needs to be assembled! Cut out each body part and paste them together to build your own robot. You can arrange the parts any way you like — make a tall robot, a wide robot, or a silly robot!

Robot Assembly Area (paste parts here)

Build your robot here

Robot Parts to Cut Out

Square Head
A square with two round eyes, a rectangular mouth with zigzag teeth

Rectangle Body
A tall rectangle with three round buttons down the center and a control panel

Left Arm
A long thin rectangle ending in a three-fingered claw hand

Right Arm
A long thin rectangle ending in a three-fingered claw hand

Left Leg
A thick rectangle ending in a flat rectangular foot

Right Leg
A thick rectangle ending in a flat rectangular foot

Antenna
A thin stick with a small ball on top, goes on the head

Chest Buttons
Three extra circle buttons (red, yellow, green) to stick on the body

Jet Pack
Two small cylinders with flame shapes — stick on the back for a flying robot!

Bow Tie
A small triangle-triangle shape to go between head and body

Activity 13: Finish the House

This house is not finished yet! It has walls and a basic shape, but it needs a roof, door, windows, and more. Cut out the house parts below and paste them on to complete the house. Add your own drawings too!

House Outline (paste parts here)

Basic house shape: a large square (walls) with a triangle on top (roof area)

House Parts to Cut Out

Front Door
Brown rectangle with a round doorknob on the right side

Window 1
Square window divided into four panes with a flower box underneath

Window 2
Round porthole window with a cross frame

Roof Tiles
Overlapping curved shapes, red or brown, to cover the roof triangle

Chimney
Small rectangle with three puffs of smoke coming out the top

Garden Path
Row of stepping stones leading from the door to the bottom of the page

Mailbox
Small box on a post with a flag, placed near the path

Bushes
Two round green shrubs for either side of the door

Welcome Mat
Small rectangle in front of the door that says “WELCOME”

Cat on the Roof
A small cat silhouette sitting on the peak of the roof

4

Pattern Making

Patterns are everywhere! Cut, arrange, and paste to create repeating designs, mosaics, and quilts.

Activity 14: Repeating Patterns

Each row below shows the start of a pattern. Cut out the pieces from the bottom of the page and paste them into the empty cells to continue the pattern correctly.

Pattern 1: A-B Pattern (Star, Heart, Star, Heart, ...)

Pattern 2: A-B-C Pattern (Circle, Square, Triangle, Circle, ...)

Pattern 3: A-A-B-B Pattern (Sun, Sun, Moon, Moon, ...)

Pattern 4: A-B-B Pattern (Diamond, Oval, Oval, Diamond, ...)

Pieces to Cut Out

- **Star** (cut 2)
- **Heart** (cut 2)
- **Square** (cut 1)
- **Triangle** (cut 2)
- **Circle** (cut 1)
- **Sun** (cut 2)
- **Moon** (cut 2)
- **Diamond** (cut 1)
- **Oval** (cut 3)

Answer Key (for parents)

Pattern 1: Star, Heart, Star, Heart • **Pattern 2:** Square, Triangle, Circle, Square • **Pattern 3:** Sun, Sun, Moon, Moon • **Pattern 4:** Oval, Oval, Diamond, Oval

Activity 15: Build a Mosaic

A mosaic is a picture made from many small colored pieces. Below is an 8 × 8 grid. Cut out the colored squares from the piece bank and paste them into the grid following the color map to reveal a hidden picture — a simple smiley face! Each cell in the map tells you what color to place there.

Color Map

Blue	Blue	Blue	Blue	Blue	Blue	Blue	Blue
Blue	Blue	Yellow	Yellow	Yellow	Yellow	Blue	Blue
Blue	Yellow	Yellow	Yellow	Yellow	Yellow	Yellow	Blue
Blue	Yellow	Black	Yellow	Yellow	Black	Yellow	Blue
Blue	Yellow	Yellow	Yellow	Yellow	Yellow	Yellow	Blue
Blue	Yellow	Black	Yellow	Yellow	Black	Yellow	Blue
Blue	Blue	Yellow	Black	Black	Yellow	Blue	Blue
Blue	Blue	Blue	Blue	Blue	Blue	Blue	Blue

Mosaic Grid (paste squares here)

Squares to Cut Out

Color these squares with crayons first, then cut them out. You need: **30 Blue**, **28 Yellow**, **6 Black**.

Blue Squares
Color 30 small squares blue

Yellow Squares
Color 28 small squares yellow

Black Squares
Color 6 small squares black

Activity 16: Design a Quilt Square

A quilt is a blanket made from many squares of fabric sewn together. Below is a 4 × 4 grid. Cut out the pattern pieces from below, color them any way you like, and paste them into the grid to design your own quilt block. Try to make a pattern that repeats or looks balanced!

Your Quilt Block (paste pieces here)

Quilt Pieces to Cut Out

Color each piece before cutting. Try using 2–3 colors to make a pattern. Here are 16 pieces — one for each cell in the grid:

Solid Square (cut 4)
Fill one solid color

Diagonal Half Square (cut 4)
Draw a diagonal line corner-to-corner; color each triangle a different color

Striped Square (cut 4)
Draw 3 horizontal stripes, alternating two colors

Diamond-in-Square (cut 4)
Draw a diamond shape in the center; color the diamond one color and corners another

Design Ideas

- **Pinwheel:** Place the diagonal pieces so the triangles spin around the center.
- **Checkerboard:** Alternate solid red and solid blue squares.
- **Frame:** Put striped squares around the edges and diamond-in-square pieces in the center four cells.
- **Random quilt:** Mix all the pieces however you want — every quilt is unique!
