SECTION 1

How to use this planner

Pick a month, pick a project, and start on time.

Every project below is a pattern in your CrochetLib library, with the time it usually takes. Start early enough that finishing feels calm, not rushed.

The one-minute method

- 1 Find the month you are in, or the holiday you are making for.
- 2 Pick one or two projects. Check the time on each card.
- 3 Divide the hours by how many hours a week you crochet. That is how many weeks you need.
- 4 Add one extra week for sewing, finishing and wrapping.
- 5 Count back from the date you need it, and write that start date in your planner at the end.

Example

A project of 4 to 5 hours, and you crochet about 3 hours a week: that is about 2 weeks, plus 1 week to finish. Start 3 weeks before the date.

Times are estimates. If you are new, add half again to the time. Difficulty is shown as Beginner or Intermediate.

Gift timeline

Work back from the date so nothing is left to the last night.

WHEN	WHAT TO DO
6 to 4 weeks before	Choose the pattern and the person. Pick yarn and hook, and buy everything in one go.
4 to 3 weeks before	Make a swatch if the piece is worn or fitted. Start.
3 to 1 weeks before	Crochet a little every day. Track hours against the time on the card.
Last week	Sew, weave in ends, block or steam if needed, and check that everything is secure.
Wrap day	Add a small tag with the yarn and washing instructions.

Safety for toys

For children under 3, embroider the eyes and noses instead of using safety eyes or buttons, and skip small sewn-on parts.
