BONUS 1 OF 6

Flavor Lab Recipe Cards

Design your own signature popcorn in 5 minutes

How to use the cards

> *Every gourmet popcorn is six pieces: Base → Coating → Flavor → Color → Texture → Topping. Pick one option for each, write it on a card, and you have a recipe that is yours.*

1. **Pick your six pieces** from the option lists on the next pages. Circle or tick them.
2. **Fill in a card**: give it a name, write the six pieces, then list your ingredients and steps. Use the Mother Formulas in your Popcorn Lab™ book for amounts and temperatures.
3. **Make a half batch first** (5–6 cups). Taste, then adjust one piece at a time.
4. **Rate it and keep it.** Print the cards on card stock, cut along the dotted lines, and keep them in a recipe box.

Rules of thumb

- Change **one piece at a time** when you adjust. Then you know what worked.
- Keep coatings **thin**: about 3/4 cup of coating for 12 cups of popcorn.
- Dry coatings in a low oven (200–250°F) or on a tray until dry to the touch.
- Mark allergens on every card: milk, nuts, peanuts, wheat, soy.
