Knitted Fashion for Pets

> *24 sweet outfits and accessories for your furry companion: sweaters for dogs and cats, snug neck warmers, bandanas and bow ties.*

Measuring your pet

- **Neck:** measure the base of the neck where a collar sits.
- **Chest girth:** measure the widest part of the rib cage, behind the front legs.
- **Length:** measure from the base of the neck to the base of the tail.

Pet safety

Never leave a pet wearing knitted items unsupervised. Check that the piece does not restrict breathing, walking or sitting, keep ties and trims short and secure, avoid small buttons or beads that can be chewed off, and stop using any item that is damaged. Wash with a pet-safe detergent. Ask a veterinarian if your pet has skin problems.

How to use the patterns

Each pattern gives sizes by pet weight and measurements. Pick the size by the measurements, not the weight, then knit a gauge swatch. The abbreviations and techniques are explained in the Start Here guide of The Knitting Bible.
