Rows 2-42	ch 1, turn, sc in each st across	(4)

Finishing

1. Sew the belly to the lower front of the body, centered, with its long side running up and down and its top about 1 in (2.5 cm) below the head end.
2. Embroider the eyes with black yarn, about 6 st apart, above the belly. (Optional safety eyes go in before you sew on the belly, and are not for toys for children under 3.)
3. Sew the beak between the eyes, a little lower, pointing down, with its wide edge at the top.
4. Flatten each flipper and sew its open end to the side of the body, slanting slightly down.
5. Sew the feet flat under the front of the body, side by side, so the toes peek out.
6. Wrap the scarf around the neck with the ends overlapping in front, then sew it to the body all the way around so nothing hangs loose. Weave in all the ends.

Tips

- Stuff firmly and evenly. A tall stuffed body with a flat base stands up without help.
- The scarf is sewn on all the way around, so there are no loose ends for little hands to pull.
- Try a different scarf color, or add a second color for stripes, using the same 4 st width.

Sizes are approximate and depend on your yarn and tension. The photo is an illustration of the finished piece. For your personal use.
