Rnd 14	dec around	(6)
Finish	Fasten off leaving a long tail for sewing. Close the hole.	

Legs (make 8, black)

Work in a spiral without joining. Use a stitch marker to mark the first stitch of each round.

Rnd 1	6 sc in MR	(6)
Rnds 2-13	sc in each st around	(6)
Finish	Fasten off leaving a long tail for sewing. Do not stuff. The legs stay soft and bendy.	

Eyes (make 2, white)

Flat discs. Do not stuff.

Rnd 1	6 sc in MR	(6)
Rnd 2	inc in each st around	(12)
Finish	Sl st in the next st. Fasten off leaving a long tail for sewing.	

Finishing

1. Hold the spider with the magic ring end on top. Sew the eyes to the front of the body on Rnd 7, with the discs 5 st apart center to center. Embroider a black pupil (about 2 st wide) in the middle of

each disc.

2. Embroider a smile with pink yarn on Rnd 10, about 6 st wide, below the eyes.
3. Sew the legs around the widest part of the body on Rnd 8, four on each side, 2 st apart. Count from the center of the face: sew the legs at 5, 7, 9 and 11 st to the left, and at 5, 7, 9 and 11 st to the right. That leaves 10 st clear at the front and 8 st clear at the back.
4. Bend each leg a little in the middle and add a hidden stitch on the inside of the bend if you want it to stay bent.
5. Weave in all the ends.

Tips

- Legs are simple tubes. If you want them stiffer, stuff them lightly, but keep them thin.
- For a bigger spider, work the legs 3 to 4 rounds longer. Everything else stays the same.
- This spider is a decoration and a toy for older kids. No wires or hard eyes are used.
