Pattern

Skirt

Worked from the top down in joined rounds without turning. Turning chains do not count as stitches.

Rnd 1	ch 108. Join with a sl st to the first ch, being careful not to twist. Ch 2, hdc in each ch around, sl st to the first hdc	(108)
Rnds 2-6	ch 2, hdc in each st around, sl st to the first hdc. This is the waistband	(108)
Rnd 7	ch 2, *hdc in next 5 st, 2 hdc in next st* x 18, sl st to the first hdc	(126)
Rnds 8-12	ch 2, hdc in each st around, sl st to the first hdc	(126)
Rnd 13	ch 2, *hdc in next 6 st, 2 hdc in next st* x 18, sl st to the first hdc	(144)
Rnds 14-55	ch 2, hdc in each st around, sl st to the first hdc	(144)
Finish	Fasten off and weave in the end.	

Finishing

1. Weave in all the ends.
2. Fold Rnds 1-3 of the waistband to the inside, so the foundation chain edge lies against the inside of Rnd 6. Pin it there.
3. Sew the foundation chain edge to the inside of Rnd 6 with a yarn needle and small stitches, all the way around. Leave a gap of about 2 in (5 cm).
4. Attach a safety pin to one end of the elastic and thread it through the waistband. Try the skirt on and adjust the elastic to fit.
5. Overlap the elastic ends by 1 in (2.5 cm), sew them together firmly, then sew the gap closed.

Tips

- The hip size is set by the 144 st. To change it, work 3 more or fewer st for every 1 in (2.5 cm) of hip, keeping the number a multiple of 18 for the increase rounds.
- To change the length, work 2.5 plain rounds for every 1 in (2.5 cm). Add or remove them at the end.
- Cotton blends hang better than pure acrylic, which can stretch out with wear.

Sizes are approximate and depend on your yarn and tension. The photo is an illustration of the finished piece. For your personal use.
