Finishing

1. Sew the soil disc inside the rim of the pot (36 st to 36 st). Add a little more stuffing before you close the last stitches.
2. Sew the open (bottom) end of the cactus body to the center of the soil, stitching all around the 18 st.
3. Sew one arm to the left side of the body, about 5 rounds down from the top, tilted up. Sew the second arm to the right side, about 7 rounds down from the top.

4. With cream yarn, embroider 10 to 12 small V-shaped stitches spread over the body as spines.
5. Sew the pink flower on top of the cactus and stitch 3 tiny yellow stitches in its center. Weave in all the ends.

Tips

- Sew the arms along their whole length rather than just at one end, so they do not flop.
- Use a hook one size smaller than usual so the stuffing does not show between stitches.
- This is a decoration, not a toy. Keep it away from children under 3.

Sizes are approximate and depend on your yarn and tension. The photo is an illustration of the finished piece. For your personal use.
