Finishing

1. Stuff the trunk lightly and sew its open end to the lower middle of the face. Curl it a little to one side as you sew.
2. Embroider the eyes with black yarn, about 6 st apart, just above the trunk. (Optional safety eyes go in before you sew on the trunk, and are not for toys for children under 3.)
3. Sew each ear along one straight edge to the side of the head, so the rest of the disc flaps out.
4. Stuff the body firmly and sew its open end to the bottom of the head.
5. Sew the front legs to the sides of the body just below the head.
6. Sew the open ends of the back legs to the bottom front of the body so the elephant sits up.
7. Sew the tail to the middle of the back, low down, and weave in all the ends.

Tips

- Stuff the trunk with a very small amount of fiberfill so it stays soft and curls.
- The ears are flat on purpose. Sew only one edge, and let the rest stay loose.
- Sew the trunk on before the eyes so you can center the eyes above it.
