|--------------|--|--------------|
| Rnd 1 | Make a MR. Ch 1, work 12 sc in the ring, join with a sl st to the first sc (12 sc) | (12) |
| Rnd 2 | *Sl st in next st, ch 7 (the arm), ch 3 and sl st in the first of these 3 ch (tip picot), sc in each of the 7 arm ch back down to the ring, sl st in next st of Rnd 1* x 6 (6 arms, 7 sc each). Fasten off | (120) |
| Rnd 3 | Join with a sl st to the 4th sc from the tip of any arm. *Ch 5, sc in the 4th sc from the tip of the next arm* x 5, ch 5, sl st in the first sl st (6 links of ch 5). Fasten off and weave in the ends | (36) |

Finishing

1. Weave in the ends on the back.
2. Pin the snowflake flat on a foam board covered with wax paper, straightening each arm and stretching the chain links until they are taut.
3. Brush or spray on the stiffener, and let it dry completely, for at least 12 hours.
4. Unpin it. Thread the ribbon through the picot loop at the tip of one arm with the yarn needle, and knot the ends to make the hanging loop.

Tips

- Pull the chains a little snug in Rnd 3 so the snowflake lies flat and the arms stay straight.
- Make one in each of a few sizes by adding or removing chains in the arms. Keep the link chains at the same count.
- This is a decoration, not a toy. Keep it away from babies and small children.

Sizes are approximate and depend on your yarn and tension. The photo is an illustration of the finished piece. For your personal use.
